Gonococcus, meningitis and ventriculitis due to, in presence of ventriculoperitoneal shunt, **62***
Gonococcus, method for distinguishing colony types of, **285**
Gonocuccus, penicillinase-producing, control of, **63***
Gonococcus, penicillin resistant, non-penicillinase producing, **286**
Gonococcus, perihepatitis due to, **285***
Gonococcus, proctitis due to, **285***
Gonococcus, proctitis due to, treatment of, **359**
Gonococcus, resistant infection due to, from an intrauterine contraceptive device, **133***
Gonococcus, sensitivity of, to penicillin, **63***
Gonococcus, sensitivity of, to penicillin G in Berne, **286***
Gonococcus, septicaemia due to, adult respiratory distress syndrome in, **61**
Gonorrhoea, antigonococcal IgA in, **286***
Gonorrhoea, cervical, ultrastructural study of, **133**
Gonorrhoea, complicated, gonococcal complement fixation test in, **358**
Gonorrhoea, condom and, **68**
Gonorrhoea, culture diagnosis of, **359***
Gonorrhoea, culture of hysterectomy specimens for, futility of, **133***
Gonorrhoea diagnosis by Gram stain in female adolescent, **210***
Gonorrhoea epidemic, containing, **285***
Gonorrhoea, incidence of, in urban Rhodesian black women, **285***
Gonorrhoea, pivampicillin plus probenecid in, **63***
Gonorrhoea in preadolescent children, source and mode of transmission of, **210**
Gonorrhoea, repeated, importance and risk factors, **358**
Gonorrhoea screening in male consorts of women with pelvic infection, **133**
Gonorrhoea screening in teenagers, **358***
Gonorrhoea, serologic test for, evaluation of, in low-risk female population, **63***

Gonorrhoea, serology, **210***
Gonorrhoea, trimethoprim-sulphamethoxazole in, **137**
Gonorrhoea, uncomplicated, gonococcal complement fixation test in, **358**
Gonorrhoea, a vaccine against?, **137***
Gonorrhoea in women, **285, 358**

Haemophilus ducreyi, isolation of, **362**
Haemophilus influenzae, beta-lactamase-producing, penicillinase paper strip test for, **135**
Haemophilus strains, activity of Rosamicin against, *in vitro*, **140***
Hepatitis B surface antigen and antibody in homosexual and heterosexual men, **289**
Hepatitis B virus, **290***
Herpes, anogenital, retention of urine in, **288**
Herpes, genital, and cervical carcinoma, **288***
Herpes, genital, FTA–ABS test and, **361**
Herpes, genital, in pregnancy, **66**
Herpes, genital, and type 1 herpes virus, **139***
Herpes genitalis, non-venereal sclerosing lymphangitis of penis following, **139***
Herpes genitalis, recurrent, levamisole therapy for, **66**
Herpes virus antibody, radioimmunoassay of, correlation with ganglionic infection, **139***
Herpes virus antibody, typing of, **139***
Herpes virus infection of cervix and vagina, tampon culture for quantitation of, **361**
Herpes virus infection, correlation of clinical and virological findings with cytology in, **66**
Herpes virus infection, failure of levamisole in, **139***
Herpes virus infection, genital, treatment of, **288***
Herpes virus infection, latent, in mice after treatment with arabinosides, **213***
Herpes virus infections in neonates, **138***
Herpesvirus, prevalence of, in lesions suggestive of chancre, **212**
Herpes virus type 1, genital herpes and, **139***
Herpes virus types 1 and 2, **139***
Herpes virus types 1 and 2 antibodies in human cervical mucus, **213**
Herpes virus types 1 and 2 in college women, **212**
Herpes virus types 1 and 2, correlation with clinical features, **65**
Herpes virus types 1 and 2 in ocular disease, **288***
Herpes virus type 2 antibodies, **139***
Herpes virus type 2, effect of ribavirin on, **67**
Herpes virus type 2, inapparent sexual transmission of, with subsequent neonatal death, **361***
Herpes virus type 2 infection in asymptomatic pregnant women, **66**
Herpes virus type 2 isolation from female genital tract, **67***
Herpes virus type 2 meningitis, **67***
Herpes virus vaccines, **213***
Heterosexual, male, prevalence of hepatitis B surface antigen and antibody in, **289**
HL-A antigens in Behçet's disease, **290***, **362***
HLA–B27, role of, in sexually acquired reactive arthritis, **287**
Homosexual men, e antigen in, **139**
Homosexual men, examining for sexually transmitted diseases in, **214***
Homosexual men, prevalence of hepatitis B surface antigen and antibody in, **289**
Homosexual men in New York City, amoebiasis in, **213**
Homosexual men, venereal transmission of enteric pathogens in, **214**
Homosexual population, male, sexually transmitted enteric pathogens in, **289**
Hysterectomy specimen culture for gonorrhoea, **133***

Indians, South American, treponemal antibody distribution in, **356**
Infants, chlamydial pneumonia in, **361***

John Hunter's alleged syphilis, **289**

King County, Washington, male urethritis in, **290*** *bis*
Kvadricult gonococcal culture kit, **359***

Leucorrhoea, *Corynebacterium vaginale* in women with, **140**
Levamisole in herpes virus infection, **139***
Levamisole in recurrent herpes genitalis, **66**
Loitokitok, incidence of treponemal disease in adult men in, **132**
Lymphangitis of penis, non-venereal sclerosing, following herpes genitalis, **139***
Lymphogranuloma venereum presenting as supraclavicular and inguinal lymphadenopathy, **67***

Mecillinam, action of, on *N. gonorrhoeae*, **211**
Meningitis, due to herpes virus type 2, **67***
Meningitis, gonoccal, **62***
Meningitis, syphilitic, with papilledema, **209***
Metronidazole, fixed drug eruption due to, **140***
Metronidazole inhibition of *Corynebacterium vaginale*, **68**
Minocycline, side effects of, **214***
Molluscum contagiosum in a women's outpatient clinic; a venerally transmitted disease, **139**
Mycoplasma hominis antibody titres in pregnant women, **361***
Mycoplasmas in women with reproductive failure, sterility or vaginitis, **361***

N. gonorrhoeae. **63***, **134**, **136*** *ter*, **137*** *bis*
N. gonorrhoeae, action of mecillinam on, **211**
N. gonorrhoeae, action of 15 penicillins on, **211**
N. gonorrhoeae, action of spectinomycin on, **210**
N. gonorrhoeae, activity *in vitro* of various penicillins against, **137**
N. gonorrhoeae, antibiotic susceptibility of, *in vitro*, **360***
N. gonorrhoeae, auxotypes and penicillin susceptibilities of, **134**
N. gonorrhoeae, auxotyping of, **134**
N. gonorrhoeae, bactericidal action of spectinomycin on, **63**
N. gonorrhoeae, beta-lactamase-producing, penicillinase paper strip test, for, **135**
N. gonorrhoeae, beta-lactamase-specifying plasmids from, **135**
N. gonorrhoeae, beta-lactamase transfer in, **210**

N. gonorrhoeae, binding of progesterone to, **63***
N. gonorrhoeae, cell envelope of, **136***, **286***
N. gonorrhoeae, conjugal transfer of R. plasmids in, **134**
N. gonorrhoeae in disseminated gonococcal infection, attributes of, **136**
N. gonorrhoeae, effect of benzylpenicillin on cell envelope of, **359***
N. gonorrhoeae, growth inhibition of, by genital micro-organisms, **63**
N. gonorrhoeae, growth pattern and cell division in, **62**
N. gonorrhoeae, identification of, **359** *bis*
N. gonorrhoeae, immunisation against, **136** *bis*, **137**
N. gonorrhoeae, immunofluorescent staining of, **210***
N. gonorrhoeae, infection in rabbits, endocarditis in, **137***
N. gonorrhoeae infection in rabbits, hepatitis in, **137***
N. gonorrhoeae infection in rabbits, perihepatitis in, **137***
N. gonorrhoeae, inhibition of, **359***
N. gonorrhoeae, isolation of, **136***
N. gonorrhoeae, isolation and characteristics of, **62**
N. gonorrhoeae, mechanism of pathogenicity of, **133**
N. gonorrhoeae, penicillinase-producing, **63***
N. gonorrhoeae, pencillinase-producing, detection of, **359**
N. gonorrhoeae, penicillinase-producing, in the USA, **360**
N. gonorrhoeae, penicillinase-producing, screening for, **359**
N. gonorrhoeae, penicillinase-producing, two distinct types of, **135**
N. gonorrhoeae proteins, electrophoresis of, **286***
N. gonorrhoeae, simplified growth medium for, **63**
N. gonorrhoeae, spectinomycin resistant, **137**
N. gonorrhoeae, survival of, on surfaces, **62**
N. gonorrhoeae, trends and seasonality of antibiotic resistance of, **286**
Neisseria, identification of, **210***
N. meningitidis, identification of, **359**
N. meningitidis, in urogenital and rectal infections, **67**
Neisseria strains, activity of Rosamicin against, *in vitro*, **140***
Neonate, benzathine penicillin G levels in CFS of, **356**
Neonates, chlamydial, gonococcal and herpes virus infections in, **138***
Neonate, death of, caused by herpes virus type 2, **361***
Neurosyphilis, **60***
New York City, amoebiasis in homosexuals in, **213**
Nystatin for *Candida albicans*, **212***

Oxytetracycline in non-gonococcal urethritis, **361**

Papilledema in syphilitic meningitis, **209***
Pathogens, enteric, sexually transmitted, in a male homosexual population, **289**
Pelvic inflammatory disease, acute, gonococcal and non-gonococcal, treatment with penicillin and spectinomycin, **288**
Pelvic inflammatory disease, acute, role of contraception in pathogenesis of, **213**
Pelvis, acute inflammatory disease of, tetracycline or penicillin and ampicillin in, **140**
Penicillin, action of, on *N. gonorrhoeae*, **137**, **211**
Penicillin in acute pelvic inflammatory disease, **288**
Penicillin and ampicillin in acute pelvic inflammatory disease, **140**
Penicillin, benzathine, in neonatal CSF, **356**
Penicillin, effect of, on genital strains of *Chlamydia trachomatis*, **64**
Penicillin G, sensitivity of gonococci to, in Berne, **286***
Penicillin, sensitivity of gonococci to, **63***
Penicillin therapy in late syphilis, **357**
Penicillinase producing gonococci, **63*** *bis*, **135** *ter*, **137***, **359** *bis*
Penicillinase-producing gonococci in the USA, **360**
Penicillinase-producing *Neisseria*, activity of Rosamicin against, *in vitro*, **140***
Penicillinase, rapid slide test for, **362***
Penis, condylomata acuminata of, treatment, **361**
Penis, ulcerations of, microbiological flora in, **362**
Perihepatitis due to *Chlamydia trachomatis* in young women, **360**
Perihepatitis, gonococcal in a female adolescent, **285***
Peritonitis due to *Chlamydia trachomatis* in young women, **360**
Pharyngitis due to *Chlamydia*?, **286**
Pivampicillin plus probenecid in gonorrhoea, **63***
Pneumonia, chlamydial, in infants, **361***
Pneumonitis, infant, due to *Chlamydia, trachomatis*, **286**
Podophyllin in treatment of penile condylomata lata, **361**
Podophyllotoxin in treatment of penile condylomata lata, **361**
Pregnancy, cytomegalovirus infection in, **66**
Pregnancy, genital herpes infection in, **66** *bis*
Pregnancy, gonococcal arthritis in, **210***
Pregnancy, treatment of candidiasis in, **288***
Proctitis, gonococcal, in a married woman, **285***
Proctitis, gonococcal, treatment of, **359**
Progesterone binding to *N. gonorrhoeae* and other Gram-negative bacteria, **63***
Prostatitis, bacterial, Rosamicin in, **140**
Prostitutes, screening for gonorrhoea in, **358**

Rectum, social injuries of, **289**
Reiter's disease, acute, comparison with acute gonococcal arthritis, **212***
Reiter's disease, acute, sacroiliitis in, **212**
Reiter's disease and aoritic incompetence, rheumatoid factor in, **214***
Reproduction, failure of, mycoplasmas in women with, **361***
Respiratory distress syndrome, adult, in gonococcal septicaemia, **61**
Rheumatic complaints revealing secondary syphilis, **285**
Rheumatoid factor in Reiter's disease and aortic incompetence, **214***
Rhodesia, urban black women in, incidence of gonorrhoea in, **285***
Ribavirin, effect on herpes virus type 2, **67**
Rifampicin in TRIC eye infection, **65***
Rosamicin in bacterial prostatitis, **140**
Rosamicin in urethral and vaginal secretions and tissues in dogs and rats, **140**
Rosamicin, *in vitro* activity of, against *Neisseria* and *Haemophilus*, including penicillinase-producing strains, **140***

Sacroiliitis of acute Reiter's disease, **212**
Scrotum, condyloma acuminatum of, **213***
Septicaemia, gonococcal, acute adult respiratory distress syndrome in, **61**
Sexual intercourse and urinary infections, **362***
Sexual intercourse, urine bacterial counts after, **362**
Sexually transmitted diseases, examining the homosexual male for, **214***
Sexually transmitted enteric diseases, **67**
Spectinomycin, action of, on *N. gonorrhoeae*, **63, 210**
Spectinomycin in acute pelvic inflammatory disease, **288**
Spectinomycin-resistant *N. gonorrhoeae*, **137**
Spermatozoa, human, interference of motility of, by *T. vaginalis*, **288**
Sterility, mycoplasmas in women with, **361***
Streptococcocus, group A, immunofluorescent staining of, **210***
Streptococcus, group B, vaginal colonisation of, in college women, **67**
Syphilis in Australian aborigines, **285***
Syphilis, congenital, in aborted second trimester fetus, **356***
Syphilis in Ethiopia, **357**
Syphilis, John Hunter's alleged, **289**
Syphilis, late, action of penicillin therapy in, **357**
Syphilis, meningitis with papilledema due to, **209***
Syphilis, routine tests on CSF for, **61**
Syphilis, secondary, presenting as pruritic dermatosis, **60***
Syphilis, secondary revealed by rheumatic complaints, **285**
Syphilis, secondary, specific antibodies in tissue infiltrates of, **209**
Syphilis, serology, borderline FTA–ABS test reactivity, **60**
Syphilis, serology, comparison of ART and RST methods in routine screening, **60**
Syphilis, serology, validity of TPHA test at various dilutions, **60**
Syphilis, spinal, FTA antibody in CSF in, **61**

Teenagers, asymptomatic, use of swabs for gonorrhoea screening in, **358***
Teenagers, screening for gonorrhoea in, **358***
Testosterone propionate in balanitis xerotica obliterans, **68***
Tetracycline in acute pelvic inflammatory disease, **140**
Tetracycline-resistant strains of *Ureaplasma urealyticum*, **287**
Thiotepa for anorectal condylomata acuminata, **213***
Tinidazole in *T. vaginalis* infection, **212***
TPHA test, **60**
T. pallidum, **61***
T. pallidum antibodies, counterimmunoelectrophoresis, test for, **356**
T. pallidum, fluorescent antibody detection of, **61**
T. pallidum infected rabbits, **285***
T. pallidum-infected rabbits, *in vitro* cell response of, **209** *bis*, **210**
T. pallidum, motility of, effect of fatty acids on, **357***
T. pallidum Nichols strain, **210***
T. pallidum, Nichols strain, unsustained multiplication of, **357***
T. pallidum, serology, **132**
T. pallidum, terminal electron transport in, **133***
T. pallidum, virulent, anabolic potential of, **285***
T. pallidum, virulent, and macrophage migration inhibition in rabbits, **133***
T. pallidum, virulent, catabolism of glucose and fatty acids by, **61**
T. pallidum, virulent, parasitism by, **132**
T. pallidum, virulent, ribosomal ribonucleic acid synthesis by, **357***
Treponemal antibody distribution in South American Indians, **356**
Treponemal antibody tests in CSF, **357**
Treponemal disease in Loitokitok, incidence of, in adult men, **132**
TRIC eye infection, treatment with chloramphenicol, **65***
TRIC eye infection, treatment with rifampicin, **65***
Trimethoprim-sulphamethoxazole in gonorrhoea, **137**
T. vaginalis infection, tinidazole in, **212***
T. vaginalis, influence of antimetabolites on, **138***
T. vaginalis, interference of human spermatozoal motility by, **288***
T. vaginalis, vaginitis due to, effect on vaginal pH, **212**

Ulceration, penile, microbiological flora of, **362**
Ureaplasmas, human intra-urethral inoculation of, **64**
Ureaplasma urealyticum, **138*** *bis*
Ureaplasma urealyticum antibody titres in pregnant women, **361***
Ureaplasma urealyticum, incidence of tetracycline-resistant strains of, **287**
Ureaplasma urealyticum, morphology of, **65***, **138***
Ureaplasma urealyticum in non-gonococcal urethritis, **64**
Urethra, bacteriology of, in nongonococcal urethritis, **211**
Urethra, bacteriology of, in normal men, **211**
Urethritis, gonococcal, erythromycin in, **137**
Urethritis, male, in King County, Washington, **290*** *bis*
Urethritis, non-gonococcal erythromycin in, **361**
Urethritis, non-gonococcal, etiology of, **63, 64**
Urethritis, non-gonococcal, oxytetracyline in, **361**
Urethritis, non-specific, *Chlamydia* and, **212***
Urinary tract infection due to *Corynebacterium vaginale* in a man, **362***
Urinary tract, infections of, sexual intercourse and, **362***
Urine bacterial counts after sexual intercourse, **362**
Urine, retention of, in anogenital herpes, **288**
USA, penicillinase-producing *N. gonorrhoeae* in, **360**
Uterus, bacteriology of, **140***

Vaccine, for gonorrhoea, **137***
Vaccines for herpes virus, **213***
Vagina, flora of, quantitative bacteriology of, **67**
Vagina, microbial flora of, **140***
Vagina, pH of, effect of trichomonal vaginitis on, **212**
Vaginitis, mycoplasmas in women with, **361***
Venereal disease, *Chlamydia trachomatis* infection and, **286**
Ventriculitis, gonococcal, **62***

Vulva, squamous carcinoma of, and condylomata acuminata, **139**

Warts, genital, **288***
Warts, venereal, versus Bowen's disease, **139**
Women, aspects of gonorrhoea in, **285**
Women, college, incidence of herpes virus types 1 and 2 in, **212**
Women, college, vaginal colonisation with group B Streptococcus in, **67**
Women, gonorrhoea in, **358**
Women, pregnant, mycoplasmacidal antibody titres in, **361***

Yaws in the Americas, 1950–1975, **209***
Yeast infection, genital, **65**
Yorkshire, Behçet's disease in, **290***

British Journal of Venereal Diseases, 1978, **54**, 455–458

British Journal of Venereal Diseases

Edited for the Medical Society for the Study of Venereal Diseases

EDITOR R. N. Thin

ASSISTANT EDITORS J. D. Oriel (Abstracts), B. Evans

EDITORIAL COMMITTEE E. M. C. Dunlop (President, MSSVD), J. Barrow (Honorary Secretary, MSSVD), R. D. Catterall, T. Guthe, K. K. Holmes, J. M. Knox, I. Phillips, P. Rodin, E. Stolz, J. Thivolet, A. E. Wilkinson, R. R. Willcox, Editor of the *British Medical Journal*

TECHNICAL EDITOR Shuna Judge

VOLUME 54, 1978

BRITISH MEDICAL ASSOCIATION
TAVISTOCK SQUARE, LONDON WC1H 9JR

Contents

February 1978 Vol. 54 No. 1

Editorial: clinic practices *page* 1

Facilities and diagnostic criteria in sexually transmitted disease clinics in England and Wales
M. W. ADLER, E. M. BELSEY, B. H. O'CONNOR, R. D. CATTERALL, AND D. L. MILLER (Gt Britain) *page* 2

Diagnostic, treatment, and reporting criteria for gonorrhoea in sexually transmitted disease clinics in England and Wales: 1. Diagnosis
M. W. ADLER (Gt Britain) *page* 10

Diagnostic, treatment, and reporting criteria for gonorrhoea in sexually transmitted disease clinics in England and Wales: 2. Treatment and reporting criteria
M. W. ADLER (Gt Britain) *page* 15

Sexually transmitted diseases: the present situation in Sweden
J. WALLIN (Sweden) *page* 24

Epidemiology and treatment of gonorrhoea caused by penicillinase-producing strains in Liverpool
O. P. ARYA, E. REES, A. PERCIVAL, C. D. ALERGANT, E. H. ANNELS. AND G. C. TURNER (Gt Britain) *page* 28

Cultural diagnosis of gonorrhoea with modified New York City (MNYC) medium
H. YOUNG (Gt Britain) *page* 36

Isolation of *Neisseria meningitidis* and *Neisseria catarrhalis* from the genitourinary tract and anal canal
C. BLACKWELL, H. YOUNG, AND S. S. R. BAIN (Gt Britain) *page* 41

Chlamydial infection of the urethra in men
H. M. PERROUD AND K. MIEDZYBRODZKA (Switzerland) *page* 45

A trial of adenine arabinoside in genital herpes
A. L. HILTON, T. E. C. BUSHELL, D. WALLER, AND J. BLIGHT (Gt Britain) *page* 50

Circulating immune complexes in syphilitic nephropathy: a case report
J. SØLLING, K. SØLLING, K. U. JACOBSEN, S. OLSEN, AND E. FROM (Denmark) *page* 53

Report of the Chief Medical Officer for 1976 *page* 57

Abstracts *page* 60

Book review *page* 68

Notice *page* 68

April 1978 Vol. 54 No. 2

Editorial: The nitroimidazole family of drugs *page* 69

Studies on strain sensitivity of *Trichomonas vaginalis* to metronidazole
J. G. MEINGASSNER, L. HAVELEC, AND H. MIETH (Austria) *page* 72

Secnidazole: a 5-nitroimidazole derivative with a long half-life
D. VIDEAU, G. NIEL, A. SIBOULET, AND F. CATALAN (France) *page* 77

Metronidazole and tinidazole in a single large dose for treating urogenital infections with *Trichomonas vaginalis* in men
N. KAWAMURA (Japan) *page* 81

APRIL 1978 Vol. 54 No. 2 *continued*

Abnormal forms of *Trichomonas vaginalis*
J. JOHN AND S. SQUIRES (Gt Britain) *page* 84

Strain related infectivity of *Neisseria gonorrhoeae* for the guinea-pig subcutaneous chamber and the variability of the immune resistance in different breeds of guinea-pig
P. NOVOTNY, E. S. BROUGHTON, K. COWNLEY, M. HUGHES, AND W. H. TURNER (Gt Britain) *page* 88

Serological diagnosis of gonorrhoea by an enzyme-linked immunosorbent assay (Elisa)
A. A. GLYNN AND C. ISON (Gt Britain) *page* 97

The antimicrobial susceptibility of *Chlamydia trachomatis* in cell culture
G. L. RIDGWAY, J. M. OWEN, AND J. D. ORIEL (Gt Britain) *page* 103

Treatment and prognosis of non-specific genital infection
B. A. EVANS (Gt Britain) *page* 107

Postgonococcal urethritis: relationship to penicillin sensitivity of the gonococcus
G. R. KINGHORN (Gt Britain) *page* 112

Current approaches to the diagnosis of herpes genitalis
E. M. BELSEY AND M. W. ADLER (Gt Britain) *page* 115

Acquisition of Type 1 herpes simplex vulvitis within a monogamous relationship
J. E. WHITNEY, G. R. B. SKINNER, AND A. BUCHAN (Gt Britain) *page* 121

Default patterns of patients attending clinics for sexually transmitted diseases
J. D. H. MAHONY, J. BEVAN, AND B. WALL (Gt Britain) *page* 124

Evaluation of the early morning smear investigation
P. D. SIMMONS (Gt Britain) *page* 128

Asymptomatic gonococcal urethritis in a male transsexual female
N. J. FIUMARA AND S. ASVADI *page* 130

Abstracts *page* 132

June 1978 Vol. 54 No. 3

Sexually transmitted diseases on a tropical island
V. S. RAJAN (Singapore) *page* 141

Cell-mediated immunity during syphilis. A review
C. S. PAVIA, J. D. FOLDS, AND J. B. BASEMAN (USA) *page* 144

TPHA test. Experience at the Clinic of Dermatology, University of Milan
E. ALESSI AND L. SCIOCCATI (Italy) *page* 151

Improved management in the diagnosis of gonorrhoea in women
A. E. JEPHCOTT AND S. RASHID (Gt Britain) *page* 155

Studies on *Neisseria gonorrhoeae* cultured in liquid medium
J. A. EAVES (Gt Britain) *page* 160

The efficacy of cefuroxime for the treatment of acute gonorrhoea in men
J. D. PRICE AND J. L. FLUKER (Gt Britain) *page* 165

Absence of detectable local antibody in genitourinary tract secretions of male contacts of women infected with *Trichomonas vaginalis*
J. P. ACKERS, R. D. CATTERALL, W. H. R. LUMSDEN, AND A. MCMILLAN (Gt Britain) *page* 168

JUNE 1978 Vol. 54 No. 3 *continued*

Specific immunity to human papilloma virus (HPV) in patients with genital warts
J. VIAC, M. J. STAQUET, M. MIGUET, M. CHABANON, AND J. THIVOLET (France) *page* 172

Recurrent genital candidosis in women and the effect of intermittent prophylactic treatment
F. DAVIDSON AND R. F. MOULD (Gt Britain) *page* 176

Clotrimazole (Canesten) in the treatment of candidal balanitis in men
M. A. WAUGH, E. G. V. EVANS, K. C. NAYYAR, AND R. FONG (Gt Britain) *page* 184

Measuring the outcome of contact tracing. 1: A description of the patient and contact populations studied
A. SATIN AND A. MILLS (Gt Britain) *page* 187

Measuring the outcome of contact tracing. 2: The responsibilities of the health worker and the outcome of contact investigations
A. MILLS AND A. SATIN (Gt Britain) *page* 192

A survey of attitudes of patients in a department of genitourinary medicine
M. J. BALSDON, B. CHARLTON, M. CURRAN, AND H. S. K. SINGHA (Gt Britain) *page* 199

Which patients with sexually transmitted diseases default? Report of a survey in one clinic
S. PERFREMENT AND K. OVERFIELD (Gt Britain) *page* 201

Correspondence *page* 205
